Bu tablolar oda şartlarındaki testler, hammadde tedarikçilerinin tavsiyeleri ve müşterilerimizin tecrübeleriyle hazırlanmıştır. Kullanıcıların farklı şartlardaki uygulamaları ürünlerin verimliliğinde değişik sonuçlar ortaya çıkabilir. Verilen sonuçlar yaklaşıktır.

This table has been compiled on the basis of in-house tests, the recommendations of our raw material suppliers and customer experience. Difference in user environments will affect the performance characteristics of the product in different ways. The ratings given above are therefore approximative only.
